EXPERIENCE

Junior Frontend Developer (Freelance Projects)

Remote — 2018–Present

- I Designed and developed custom web applications for clients in education, e-commerce, and real estate sectors
- I Implemented interactive UI components using React and modern JavaScript practices
- I Delivered over 15 production-ready sites, maintaining clean code and mobile-first principles
- I Enhanced user engagement through A/B tested UI designs, improving conversion by up to 25% on select projects

PEPPU Build, Delta state— Junior Frontend Developer Intern

2019–2020

- I Collaborated with a team of designers and developers to build UI components for the PEPPU build dashboard using React and Styled Components
- I Migrated legacy CSS code to a modular, scalable architecture using CSS-in-JS, improving maintainability and reducing style conflicts
- I Wrote unit tests for key components using Jest and React Testing Library, increasing frontend test coverage by 40%
- I Created documentation for reusable components to streamline onboarding for new developers
- I Conducted usability testing sessions and implemented feedback, which led to a 15% increase in user task completion rate

PEPPU Build, Delta state— Junior Frontend Developer

2020–2023

- I Built and optimized responsive web interfaces for the PEPPU build landing page, and the other two products, using React and Tailwind CSS
- I Integrated multiple third-party APIs to enhance product functionalities. For example I integrated stripe payment

Frontend

- HTML5,
- CSS3,
- JavaScript (ES6+),
- React.js, Next.js,
- TypeScript

Backend/Integration

- Node.js,
- RESTful APIs,
- Express.js

Styling

- Tailwind CSS,
- Bootstrap,
- SASS

Tools & Platforms

- Git,
- GitHub,
- Figma,
- VS Code,
- Webpack,
- NPM

Architecture

- Component-based architecture,
- Responsive design,
- MVC patterns

Soft Skills

- Problem-solving,
- Team collaboration,
- Agile methodology,

gateway, for subscription payment. I also implemented google maps API, for user's navigation.

- I Collaborated with backend engineers to align UI components with data logic and improve system architecture
- I Contributed to codebase refactoring and performance tuning, reducing page load times by 30%

- Critical thinking

PEPPU Build, Delta state— UI/UX Frontend Engineer

2023-2024

- **I Redesigned core web interfaces** for the PEPPU build SaaS application, resulting in a 40% increase in user engagement and a 20% reduction in bounce rate.
- **I Developed a custom design system** using React and Tailwind CSS, improving team development speed and UI consistency across the two 2 products of PEPPU build.
- **I Optimized frontend performance** by lazy-loading components and minimizing bundle size, reducing initial load time by over 45%.
- **I Conducted usability testing** and incorporated feedback into iterative UI updates, leading to a smoother and more accessible user experience.
- **I Collaborated closely with designers** using Figma to translate wireframes into functional, pixel-perfect web pages

EDUCATION

B.Sc in Computer Science

Federal University of Petroleum Resources Effurun, Delta state, Nigeria

Concluded: 2025
